January 4, 1983

Mr. Steven D. Smith, Treasurer
Sauget Sanitary Development &
Research Association
2897 Monsanto Avenue
Sauget, Illinois 62206

Dear Steve:

Thank you for sending me the Categorical Effluent Limitation material for the Copper Forming Industries and workshop notice.

The Federal Register issue dealing with this subject was previously sent to us by the Copper and Brass Fabricators Council, whose Environmental Committee is preparing comments to be submitted prior to January 11, 1983. I may in due time take an active role on that committee.

I appreciate your interest in this and would welcome any additional data you may receive along these lines, as my sources for government publications are not 100% reliable.

Best wishes for the New Year.

Yours truly,

A handwritten signature in black ink, appearing to be "Paul Tandler", written over a large, stylized circular flourish.

Mr. Paul Tandler
Cerro Copper Company
P. O. Box 681
East St. Louis, IL. 62202

Dear Paul:

Attached is the proposed Categorical Effluent Limitation for the Copper Forming industries. I assume you have these, if not you may wish to review and comment to the U.S.E.P.A. prior to the January 11th, 1983 deadline. While I know nothing of your "pollutant to production" ratios, these proposed regulations look excessively stringent to me.

You might want to consider contacting your National Copper Association to encourage their comments.

Very truly yours,

Steven D. Smith
Treasurer
